25X1X

1. Five amphibious vehicles were observed in the BOOSEN-ROSENGARTEN training area near FRANKFURT/Oder on 3 June 1949. They had the following 25X1C

25X1C

The vehicles concerned were manned by two men. Strong hooks were fastened to the bow and stern of the vehicles.

2. These vehicles were no longer seen in the BOOSENER training area on 5 June 1949. According to local residents, the vehicles had left for SAAROW on Scharmuetzal Lake.

25X1X Comment: Source assumes that the use of the described vehicles includes the towing of light pontoons and pneumatic boats.

25X1A Comment: From previous information it is known that all motor vehicles 25X1C are amphibious vehicles. There have been no indications as to the unit to which the 25X1C

25X1A
